What i want is in my empty div has 0px (the min-width attribute) and it should toggleshow hide but i cant seem to find a way to do this. I have tried `$(#notecenter-1-filter-options').toggleClass("hidden");` but i have to set the width from right to left and after that i dont know how to continue or this will toggle another div so i am not sure if this is the right way. This is how i am adding the jquery on my form. `$(input.autofocus).focus(); $(input.autofocus).on('focus', function() { 82157476af`
